INTRODUCTION

3.3.2 Workshops / Seminars organized on Intellectual Property Right (IPR), Research methodology, Good clinical Practice, Laboratory, Pharmacy and Collection practices, Research Grant writing and Industry-Academia Collaboration during the academic Year 2023 - 2024.

VISTAS promotes research in a streamlined and systematic manner. The first step in the promotion of research is to create awareness on the various components of research so that young faculty are motivated to take up research passionately. Therefore, workshops and seminars are organized on

- **Intellectual Property Right (IPR)**
- **Research Methodology**
- **Good clinical Practice**
- **Laboratory**
- **Pharmacy and Collection practices**
- **Industry-Academia Collaboration**

Intellectual Property Rights

The vision of VISTAS - IPR is to be the source of new ideas and innovations in technology and science. The mission is to create an ambiance where new ideas and research flourish, fostering tomorrow's leaders and innovators. VISTAS - IPR has initiated the promotion of innovations among faculty, research scholars, and students. Subsequently, VISTAS – IPR has undertaken the protection of inventions and other creative works of its students, faculty, and research scholars, as IP has steadily grown in the institution. The IPR cell of VISTAS, established in association with TNSCST, serves as a platform for distributing IPR knowledge among VISTAS faculty members, research scholars, and students. Furthermore, AVISHKAR, an Intra-University technical expo, is organized for students to display their creative ideas as products, prototypes, or models.

Research Methodology

Workshops in research methodology are organized for postgraduate students and research scholars in medicine, dental, engineering, and nursing fields. These programs help students understand the nuances of conducting research in their respective fields.

Good Clinical Practice

The institution has organized workshops on good clinical laboratory practice focusing on demonstrating procedures for the proper use of Personal Protection, Equipment, sample registration, and data management.

Laboratory

Many workshops have been organized on Laboratory Safety Protocols, Equipment Maintenance, Documentation and Record Keeping, Quality Control and Assurance, Standard Operating Procedures (SOPs), Waste Management, and Data Management and Analysis by the institution.

Pharmacy and Collection Practices

The institution has organized various workshops on Inventory Management, Medication Safety and Quality Control, Prescription Handling, Payment Collection, and Revenue Cycle Management, Regulatory Compliance, Technology Integration, and Patient Engagement and Support.

Research Grant Writing

Many programs on research grant writing were organized. Workshops on research grant drafting provide a platform for faculty members as well as undergraduate and postgraduate students to understand the importance of grant writing for successful research.

Industry-Academia Collaborations

Workshops and seminars on industry-academia collaborations have been regularly organized by the institution, with a major focus on collaborating with industry partners to propose solutions for predominant challenges faced by the industry. The institution, in association with industries, pursues common goals of research, innovation, and entrepreneurship. These collaborations also provide an opportunity for students to experience experiential learning through collaborative programs, internships, student projects, and research projects, enhancing the overall learning atmosphere and increasing employability for the students.

Summary Report – IPR- 26.07.2023

Online Workshop on " Intellectual Property Rights- Patents and Designs filing "
(Wednesday - 26/07/2023)

Online workshop on the Topic " Intellectual Property Rights- Patents and Designs filing " was organised by the Department of Pharmacognosy, School of Pharmaceutical Sciences (SPS), VISTAS in association with Rajiv Gandhi National Institute of Intellectual Property Management (RGNIIPM) Government of India, on 26/07/2023 between 11 A.M to 12 .15 P.M The welcome address was delivered by Dr. S. Jayakumari , Professor and Head, Department of Pharmacognosy , (SPS), VISTAS.

The key note address was delivered by Dr. P. Shanmugasundaram , Dean, SPS, VISTAS. The introductory note of the speaker was delivered by Dr. A. Vijayalakshmi, Professor, Department of Pharmacognosy , (SPS), VISTAS. The speaker Mrs Pooja Vishal Maulikar, Examiner of Patents and Designs, RGNIIPM Nagpur discussed about the different types of patents, designs application procedure, different time periods approved for patents provided for Trademark, GI and Copyright.

The speaker addressed the question raised by participants with respect to herbal and nutraceutical products patenting. A total of 197 participants attended the online workshop. Feedback link shared with the participants and the participants actively participated in the online workshop. The concluding remarks was delivered by Dr. Malarkodi Velraj , Professor, Department of Pharmacognosy, (SPS), VISTAS The online workshop was coordinated by Mr. D. Shyam Sundar , Associate Professor, Department of Pharmacognosy , SPS, VISTAS. The webex support was provided by Mrs G .Sridevi, Assistant Professor, Dept of Pharmaceutics.

15.03.24

TOPIC: THE ROLE OF INVENTION AND INNOVATION IN BUSINESS.

Resource Person: Dr. J. Khaja Sheriff

Students: I, II and III BBA (Gen L&S and Digital Marketing) Total Number of Participants: 127

Outcome of the lecture

Dr. J Khaja Sheriff's guest lecture on "From Inventor to Innovation" provided a thought-provoking exploration of transitioning from invention to fostering innovation within organizations. He emphasized the utilization of digital databases, citing examples from the Harvard Business Review, and advocated for embracing risk-free mistakes as integral components of the innovation process. The interactive session further enriched attendees' understanding, fostering a collaborative learning environment and igniting inspiration for driving organizational growth through innovation.

Dear Sir,

Sub: Requesting permission to organize Alumni Seminar for B.Tech Biotechnology Students- reg.

I am writing to request your kind permission to organize an Career Guidance Alumni seminar titled "Career opportunities in Biotechnology" at APJ Abdul Kalam Block Seminar Hall on 17-08-2023 from 10:00 to 11:30 AM for B. Tech Biotechnology students [II, III, IV year]. We have approached one of our esteemed alumni of batch 2017-2021, Ms. Akshata Sharma - Content Developer, Evolve Bizcon Services, Chennai. The purpose of this seminar is to shed light on the exciting careers in Biotechnology industry and to be well-versed with the modern cutting edge approaches in industry in order to boost their employability. We kindly request you to provide us permission for the same.

No financial assistance required

Thanking You.

Yours sincerely

The Department of Bio-Engineering organized a Alumni seminar on "Career Opportunities in Biotechnology" on 17th August, 2023 from 10.00 am to 11.30 am at Dr. APJ Block - Conference Hall, VISTAS.

Agenda of this seminar:

Biotechnology is an interdisciplinary specialisation and a broad area of biology that uses biological systems, living organisms or their components and cellular and biomolecular process to make technologies that improve our lives. The applications of biotechnology are diverse and are most popularly utilised in health and medical sciences, biomedical engineering, agriculture, cell biology, immunology, seed technology, virology and plant physiology. The main objectives of the seminar is to provide students with the knowledge of various opportunities and research ideas of Biotechnology.

The seminar was started at 10 am and the welcome speech was given by Dr. P. Vivek, HOD.

About session:

The speaker of the seminar was Ms. Akshata Sharma, Content Developer, Evolve Bizcon Services, Chennai. The purpose of this seminar is to shed light on the exciting careers in Biotechnology industry and to be well-versed with the modern cutting edge approaches in industry in order to boost their employability.

The talk was followed by questionnaire from participants. Finally, the valedictory address was given by Dr.S.S.Meenambiga, Assistant Professor.

About the Event:

On March 6th, 2024, **Iyan Karthikeyan, Mission Director of the Fact Check Unit in the Government of Tamil Nadu**, delivered a guest lecture titled **"Fighting Fake News: The Vital Role of Fact-Checking in the Media Landscape"** at the Lecture Theatre in MGR Block. The lecture was characterized by its effectiveness and interactivity with **II & III B.Sc. Viscom and II M.Sc. Viscom students.**

The program commenced with a warm welcome address by Dr. Valarmathi.S the Head of the Department, expressing gratitude for the presence of Mr. Iyan Karthikeyan and highlighting the importance of the topic in the contemporary media context. The HOD then felicitated the distinguished guest, acknowledging the significance of his role in combating misinformation.

Event Outcomes:

1. **Understanding the Importance of Fact-Checking:** Attendees should grasp why fact checking is crucial in today's media environment, where misinformation and fake news can spread rapidly.
2. **Awareness of Fact-Checking Techniques:** The lecture should provide insights into various fact-checking methods and tools available to journalists and the public to verify information accurately.
3. **Recognizing Red Flags:** Participants should be able to identify common indicators of fake news, such as sensationalism, lack of credible sources, or biased reporting.
4. **Promoting Media Literacy:** The lecture should empower individuals to become critical consumers of information, emphasizing the importance of verifying facts before sharing or believing news stories.
5. **Inspiring Action:** Lastly, attendees should feel motivated to apply fact-checking principles in their own media consumption habits and perhaps even advocate for greater transparency and accountability in journalism and online platforms.

3.00 PM to 3.05 PM: The event commenced by welcoming the Resource person and all the participants. The introduction about the event and welcome address was given by Dr.S.Jerritta, professor and Head, Department of ECE and Biomedical, VISTAS.

3.05 PM to 3.10 PM: Introduction about the Resource Person was given by Ms.V. Subha Ramya, Assistant Professor, Department of Biomedical, VISTAS.

3.10 PM to 3.50 PM: The students of the Department of Biomedical Engineering were addressed by the Resource Person, Dr.J.Sofia Bobby.She briefed about the following.

- Introduction to Wearable Technology

-Need of Wearable Technology in Healthcare

-Types of sensors used in Wearable Technology.

-Biocompatible Materials used in the manufacturing of sensors.

-Fabrication of sensors for capturing Biomedical Data.

03.50 PM to 03.55 PM: Question and answer session in which the Resource Person clarified the doubts put forth by the students.

03:55 PM to 04.00 PM: Vote of Thanks was given by Mr. U. Mutheeswaran, Assistant Professor, Department of Biomedical Engineering, VISTAS.

Event Report: Good Clinical Practices Training

Event Title: Good Clinical Practices (GCP) One day conference
Date: 12.03.2024
Location: VMCH, Periapallayam
Organized by: Vels Medical college and Hospital
Attendees: 120

Introduction

The GCP Training Workshop aimed to enhance participants' understanding of Good Clinical Practices as mandated by regulatory authorities. The session focused on compliance, ethical considerations, and quality assurance in clinical trials.

Objectives

- To educate participants on the principles of GCP.
- To discuss the regulatory framework governing clinical trials.
- To review case studies illustrating GCP compliance and violations.
- To foster an understanding of the roles and responsibilities of clinical trial personnel.

Agenda

1. **Welcome and Introduction**
    - Overview of GCP
    - Importance of GCP in clinical research
2. **Regulatory Overview**
    - Discussion on FDA, EMA, and ICH guidelines
    - Key regulations affecting clinical trials

3. **Roles and Responsibilities**
    - Responsibilities of investigators, sponsors, and Institutional Review Boards (IRBs)
4. **Case Studies**
    - Analysis of GCP compliance cases
    - Lessons learned from violations
5. **Interactive Session**
    - Q&A with experts
    - Group discussions on GCP challenges and solutions
6. **Conclusion and Feedback**
    - Summary of key points
    - Collecting feedback for future events

Key Highlights

- Engaging presentations by [Insert Speakers' Names].
- Interactive discussions that allowed participants to share experiences.
- Networking opportunities with peers from various departments.

Feedback

Participants expressed high satisfaction with the content and delivery of the training. Key takeaways included:

- Enhanced understanding of GCP regulations.
- Practical insights into compliance and ethical considerations.
- Valuable networking opportunities.

Conclusion

The GCP Training Workshop successfully met its objectives, providing essential knowledge

Submitted to Registrar for Approval,

Subject: Requesting Permission to conduct Two days Workshop on Bioinformatics and Drug designing - Regarding

Respected Sir,

This is to bring to your kind notice that, we **Department of Bioengineering & Department of Pharmaceutical Chemistry and Analysis, School of Pharmaceutical Sciences** have planned to conduct 2 days Workshop on **"Bioinformatics and Drug designing"** for the Bioengineering & Pharmaceutical Chemistry and Analysis students in association with Simbioen Labs and Scientific services Private Limited on 07.03.2024 & 08.03.2024. This workshop will be benefited for the students in the field of molecular docking and drug designing. Certificates for the students will be provided by Simbioen Labs and Scientific services Private Limited. We have attached the budget plan and program schedule for your perusal. In this regard, We request you to permit us to conduct the workshop.

Honorarium for the Guests (5 Persons from Simbioen Labs)	Rs.25000 (5* Rs.5000= Rs.25,000)
Registration fee per student	Rs.400
Number of Participants	40 (40* Rs.400= Rs.16,000)
Refreshments for 2 days	Rs. 1,000
Total Expected Expenditure	**Rs.26,000**
Amount to be collected from students	**Rs. 16,000**
Amount expecting from the Management	**Rs. 10,000**

Thanking You,

Yours sincerely,

TWO DAYS WORKSHOP ON BIOINFORMATICS AND DRUG DESIGNING

PROGRAM SCHEDULE VENUE: APJ114

DAY	TIME	SESSION TOPIC	SESSION DETAILS
Day -1	09.30 – 11.00 AM	Introduction to Molecular Modelling and Docking	PPT Session
	11.00 – 11.15 AM	Tea break	
	11.15 – 12.15 PM	CADD - Drug Designing and Modelling from plant Source	Hands On Training Session
	12.15 – 1.00 PM	Cheminformatics - Physiochemical property & Bioactivity predictions	Hands On Training Session
	1.00 – 01.30 PM	Lunch break	
	01.30 – 02.45 PM	Introduction to Genomics & Target predictions	PPT Session/ Hands On Training Session
	02.45 – 04.30 PM	Genomics & Target predictions – Gene and genome scanning, Gene Validation	Hands On Training Session
Day - 2	09.30 – 11.00 AM	An overview on computational tools used in Drug discovery	PPT Session
	11.00 – 11.15 AM	Tea break	
	11.15 – 12.15 PM	Protein Property predictions Bioactivity & Active site predictions	Hands On Training Session
	12.15 – 1.00 PM	Introduction to Proteomics–Protein Homology Modelling, Docking – AutoDock Tools	PPT Session/ Hands On Training Session
	1.00 – 01.30 PM	Lunch break	
	01.30 –	Auto Grid & Auto Dock	Hands On Training Session

	02.45 PM	Installation and Docking Tutorial	
	02.45 – 04.30 PM	Visualization And Result Interpretation – Drug Design Evaluation	Hands On Training Session

Event Report

National Level Workshop on Bioinformatics and Drug designing

Workshop on "Bioinformatics and Drug designing" was organized by Department of Bioengineering, Department of Bioinformatics, Department of Pharmaceutical chemistry and analysis on 7th and 8th March 2024.

The objective of the workshop was to acquire knowledge in Bioinformatics and drug design. M. Prakash, Proprietor, Simbioen Labs and Scientific services Private Limited, Chennai inaugurated the workshop.

MoU was signed between Vels Institute of Science, Technology and Advanced Studies and Simbioen Labs and Scientific services Private Limited, Chennai, to pursue collaborative research works on Insilco studies.

Hands on training were given to the students with the commercial softwares.

Learning Outcomes:

- Participants have gained a comprehensive understanding of bioinformatics fundamentals, acquiring practical skills in computational approaches for drug design and modelling.
- Practical expertise has been given in genomics and target predictions, with a focus on gene and genome scanning for potential therapeutic targets.
- Participants have acquired hands-on experience in proteomics, including protein bioactivity prediction and identification of active sites.
- The program has introduced participants to molecular docking principles and tools like Auto Grid and Auto Dock, enabled them to analyze protein-ligand interactions for drug design implications.

Respected Sir,

Sub: Requesting permission to organize Alumni Webinar for B.Tech Biotechnology Students- Reg.

I am writing to request your kind permission to organize a Career Guidance Alumni Webinar titled "Biotechnology studies in a global context" through webex platform on 01-02-2024 from 3:30 to 4:30 PM for B. Tech Biotechnology students. We have approached one of our esteemed alumni of batch 2018-2022, Mr. Sarath S pursuing Master of Science inCancer Biology, Sheffield Hallam University, United Kingdom. The purpose of this seminar is to shed light on the higher studies in Biotechnology in a global context and to be well-versed with the modern cutting-edge approaches in industry to boost their employability. We kindly request you to provide us permission for the same.

No financial commitment is required.

Thanking You.

Yours sincerely

P. Vivek

Alumni Webinar on "Biotechnology Studies in a global context"

The Department of Bio-Engineering organized an Alumni webinar on "Biotechnology Studies in a global context" on 01/02/2024 at 3.30 pm to 4.30 pm through webex platform.

Agenda of this Workshop:

The main objective of the seminar is to create awareness among the students about the opportunities for Biotechnology higher studies in abroad and various scholarship programs available for higher studies in overseas. The resource person of the seminar was Mr. S. Sharath (Alumni, Department of Bioengineering).

The webinar started at 3.30 pm through webex platform and the Welcome speech was given by Mrs. Rajakumari K, Assistant Professor and Organizing Secretary, Department of Bioengineering.

Summary of this workshop:

Mr. S. Sharath who is currently studying Master of Science (M.S) in Cancer Biology, Sheffield Hallam University, United Kingdom (UK). He has delivered a detailed lecture on the opportunities for biotechnology higher studies in different countries. He has explained about the various scholarship programs and eligibility exams available to study higher studies in overseas. He has explained in detail about the scope and career opportunities across globally. About 52 students of B. Tech Biotechnology participated and benefited from the webinar. Finally, the vote of thanks was given by Dr. P. Vivek, Associate Professor and Head. Feedback link was shared with participants.

Minutes about Seminar

The department of Mathematics organized a seminar titled on **"How to write proposal for Research, Funding and Consultancy Projects for Academicians",** held on **01.11.2023** at **2.00p.m to 4.00 pm** in **VISTAS Central library (conference hall).** The session was began formally by the dignitaries occupying the places and started with Tamilthaivazhthu. **Mrs. T. Iswarya, Assistant Professor, Department of Mathematics, VISTAS** hosted the session. The welcome address was delivered by **Dr. S. Meenakshi, Associate Professor and Head, Department of Mathematics, VISTAS.** Followed by a brief introduction about the Chief Guest by **Dr. A. Selvaraj, Professor, Department of Mathematics, VISTAS.**

The main objective of the seminar is to increase and motivate the faculty members and research scholars to explore themselves with the art of writing a research proposal. This session's resource person Dr. R. Muthucumaraswamy, Professor and Head, Dean (Research), Department of Applied Mathematics, Sri Venkateswara College of Engineering gave ideas about the strongest correlation between the art of writing and the development of concepts for further activities. He explained how effectively to write research proposals, methods and strategies used to deliver their research content by means of projects. He explained well about with his personal experience about major and minor funded projects applied in different funding agencies. He gave many examples and scenario about research proposals, consultancy projects and funding agencies. He highlighted more important website links which is very useful for the academicians and also for the research scholars. He clarified the doubts posed by the faculties from various departments and research scholars.

Vote of thanks was given by **Dr. S. Senthamilselvi, Assistant Professor, Department of Mathematics, VISTAS.** The entire technical work was supported by **Dr. G. Jayaraman and Mrs. A. Punitha, Assistant Professors, Department of Mathematics, VISTAS.** More than 34 staff members from various departments and 20 research scholars attended the seminar. The outcome of the program describes significance and essential learning for both the faculties and research scholars who can achieve and

reliably demonstrate. The seminar was successfully ended by singing the Indian National Anthem.

Take Away from the Guest Lecture

- During the talk, the speaker highlighted the diverse roles available in the shipping industry from the **Union budget 2024**. Sir has talked about the following details like the history of Freight forwarding, its importance, NVOCC and LCL in detail.

- Moreover, Students discussed the current trends in freight forwarding on how **4PL** is maintaining the entire Freight Forwarding nowadays. He spoke in detail about **NVOCC and its constraints and limitations** in detail. He gave a detailed **exploration of LCL** and how it benefits the freight forwarder.

- Another critical aspect of the guest lecture is the emphasis on the importance of all three concept in the shipping industry. He also spoke about the **dimensions of the containers and its capacity**.

- In conclusion, the discussion on “Navigating Global Logistics: An insight into Freight Forwarding, LCL and NVOCC” serves as a valuable resource for individuals aspiring to pursue careers in this energetic field.
